St/observing

The true facts with these papers are the reporters are compelled to get or either make up startling news to gratify the public in buying the papers.

I do not think there will be any more witnesses, owing to the fact there were only two or three reporters around here until they had the meeting at 1:30, then it seems they all went away but the Graphic reporter I was talking to and one Mirror and one News man; they all got back around 5:00 P.M. to 5:20 P.M.. Will call you up as per instructions at 4:00 P.M. Wednesday at Newark.
